*Claims*

---

---

What is claimed is:

1. In a system including a computer and a printer, a computerized method for:
  - (a) searching for wallpaper patterns in a retailer's wallpaper book inventory by color and/or motif; and
  - (b) signing/checking out wallpaper books; and
  - (c) signing/checking in wallpaper books; and
  - (d) adding/defining, activating, updating, deactivating and archiving wallpaper books; and
  - (e) adding pricing information for wallpaper patterns either generically or individually; and
  - (f) listing wallpaper book inventory; and
  - (g) providing marketing information on customer printouts; and
  - (h) backing up and restoring wallpaper book databases.

2. The computerized method of claim 1, wherein the subject wallpaper book inventory is supplanted by millwright book inventory.

3. A program storage medium readable by a computer, tangibly embodying a program of instruction executable by the computer to perform the method steps comprising:

- (a) searching for wallpaper patterns in a retailer's wallpaper book inventory by color and/or motif; and
- (b) signing/checking out wallpaper books; and
- (c) signing/checking in wallpaper books; and
- (d) adding, activating, updating, deactivating and archiving wallpaper books; and
- (e) adding pricing information for wallpaper patterns either generically or individually; and
- (f) listing wallpaper book inventory; and
- (g) providing marketing information on customer printouts; and
- (h) backing up and restoring wallpaper book databases.

4. The computer readable medium of claim 3, wherein the method steps apply to millwright book inventory.
